

I am writing to you in regard to Airl radio. It is my understanding that this radio station will be affected by the new broadcast, LPFM, by possibly removing this broadcasting station. Airl has been a positive radio station to this community and allows people, including teenagers, to listen to a positive message instead of immoral messages. I am happy to have the opportunity to receive Airl and listen to it daily. Other radio stations play music that shows disrespect to people and causes a decrease in morals and standards-i.e. teenage drinking, smoking, sex and extra-marital affairs, etc.. I feel that removing this radio station would be of great harm to our society-we need to build people up with higher morals and standards not accept what society thinks is right. If anything the FCC should put a stop to all the radio stations that put thoughts of immorality into the minds and mouths of people, including children who learn by example and by hearing.

Sincerely, Marsha Anderson Van Buren, Arkansas
